Name: NatWest Currency Pay

Device: iPhone

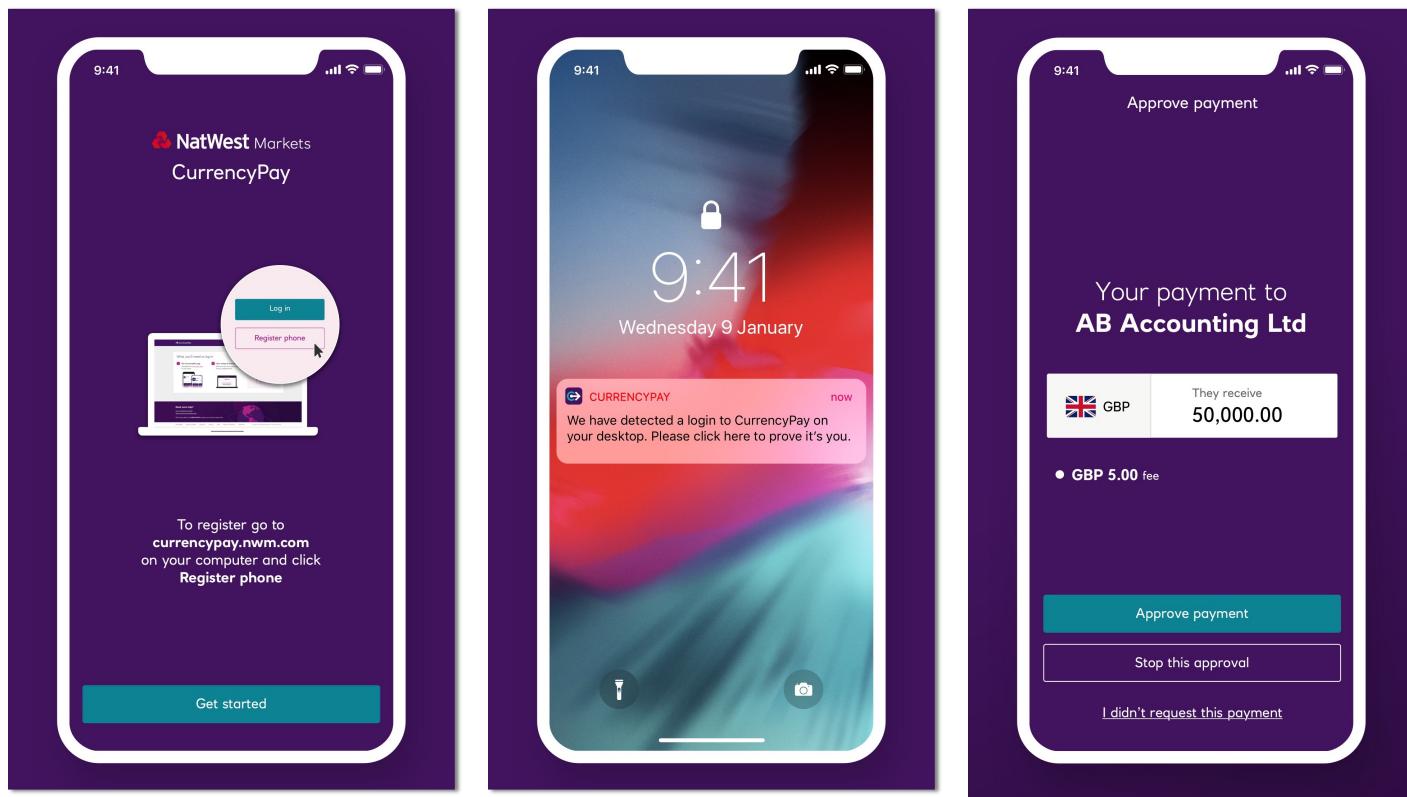

Client: NatWest Markets

Role: Principal Mobile Developer

Description: Login securely, approve payments using fingerprint, face recognition or passcode.

Note: Mobile architecture, implemented features in both iOS and Android apps

Link: <https://apps.apple.com/app/currencypay/id1457014587>

Name: Trainline

Device: iPhone, iPad

Client: Trainline

Role: Senior iOS Developer

Description: Buy Train and Coach tickets anywhere in Europe

Note: Europe expansion of the Main app. Worked in every part, implemented new Authentication, ApplePay, etc.

Link: <https://itunes.apple.com/app/trainline-train-bus-tickets/id334235181>

**Screenshot 1: Ticket options**  
Shows three ticket options: STANDARD (£191.00), STANDARD PREMIER (£247.00), and BUSINESS PREMIER FLEXI (£276.00). The STANDARD option is selected as the 'Cheapest'.

**Screenshot 2: Payment**  
Shows a payment screen for a 'Single trip' from Paris Gare de Lyon to Milan. The total price is £103.03. It includes a note: "Ticket price & seats are locked in your basket until today 12:29".

**Screenshot 3: Your tickets**  
Shows a summary of the purchased ticket: Departure on 02 Apr 2019 at 15:11 from Paris Gare de Lyon to Milan at 22:37. The passenger is Charlie Hundred, in Carriage 18, Seat 53. Reference: UQJYSN.

**Screenshot 4: Choose outbound**  
Shows the 'Choose outbound' screen with a search bar for 'Paris → Milano'. It lists several train options, including one from Paris Gare de l'Est to Milan at 12:55 and another from Paris Gare de Lyon to Milan at 15:11.

**Screenshot 5: View tickets**  
Shows the detailed view of the purchased ticket. It includes the departure and arrival stations, times, and a QR code for the ticket.

**Screenshot 6: Summary**  
Shows a summary of the trip: Departure on Tue 2 Apr at 15:11 from Paris Gare de Lyon to Milan at 22:37. The passenger is Charlie, in Carriage 18, seat 53, Standard class.

Name: Noah's Ark Animalibrium

Device: iPhone/iPad

Client: Internal

Role: Sole Unity Developer

Description: Educational game app

Note: Collaboration with an awarded book author. App featured in 10 countries.

Wide press coverage. Built with Unity.

Link: <https://itunes.apple.com/app/id1434057776>

Name: JustEat

Device: iPhone, iPad

Client: JustEat

Role: Senior iOS Developer

Description: Fuss-free food delivered to your home or office.

Note: I worked in the UK Consumer app, mainly on Rebranding, Analytics, and Restaurants search.

Link: <https://itunes.apple.com/gb/app/just-eat-takeaway-food-delivery/id566347057?mt=8>

The image displays five screenshots of the Just Eat iOS application interface:

- Search Screen:** Shows a search bar with "EC4M7RB" entered, a "Search" button, and a navigation bar with "Restaurants" and "Orders".
- Restaurant Listings:** Shows a list of restaurants open in EC4M7RB, including Barbican Express Pizza (Sponsored), Oriental House, YO! Sushi, Firezza London Bridge, and US Way Pizza.
- Order Details:** Shows an order from Pappa Ciccia Authentic Pizza & Pasta, delivered on 01/03/2015 at 19:45. It includes a "Reorder" and "View menu" button.
- Restaurant Info:** Shows details for Kennington Tandoori, including its address (313 Kennington Road, London, SE11 4QE), a map, and a review section with 5.5/6 based on 329 reviews.
- Order Details (Another View):** Shows another order from Hiba Street, including reviews with 5.5/6 based on 329 reviews.

Name: Crowdmix

Device: iPhone

Client: Crowdmix

Role: Senior iOS Developer

Description: Find music through people, find people through music

Note: Discover and share tracks, post cool stuff and chat about it. Implemented using VIPER.

Link: <https://itunes.apple.com/gb/app/crowdmix/id1036709095?mt=8>

The image displays six screenshots of the Crowdmix iOS application, showcasing its interface and functionality:

- Screenshot 1 (Top Left):** Shows the main "CROWDS" screen at 21:53. It features a grid of cards for different music crowds, including "ATLANTIS" by Ellie Goulding, "Alex Corbs Vibes" by Stevie Ward, "RUNNING OUT" by Matoma & Astrid S, "Gym Hype" by FazedottArtist, and "LETHAL BIZZLE - COINATS" by bizzlevideos.
- Screenshot 2 (Top Middle):** Shows a track detail screen for "ALEX CORBS VIBES" at 21:54. It includes a photo of Alex Corbs, a QR code, and a "Feedback" button.
- Screenshot 3 (Top Right):** Shows a messaging screen at 22:28 between users "gioUSA" and "gioUSA". It displays a message from "gioUSA" at 17:06: "Check this out http://crowdmix.me, cool, isn't?" and a video thumbnail for "Listen to this" at 22:06.
- Screenshot 4 (Bottom Left):** Shows a track detail screen for "kickassdangermouse" shared in "Gym Hype" at 23:41. It includes a photo of a person in a crown, a Spotify track player for "WORK" by Rihanna, and a "Feedback" button.
- Screenshot 5 (Bottom Middle):** Shows a "PICKED FOR YOU" screen at 23:41. It features a large image of a snowy mountain peak and a "JOIN" button.
- Screenshot 6 (Bottom Right):** Shows a search screen at 23:41 with a search bar, categories, and a "Feedback" button.

Name: Shapess

Device: iPhone

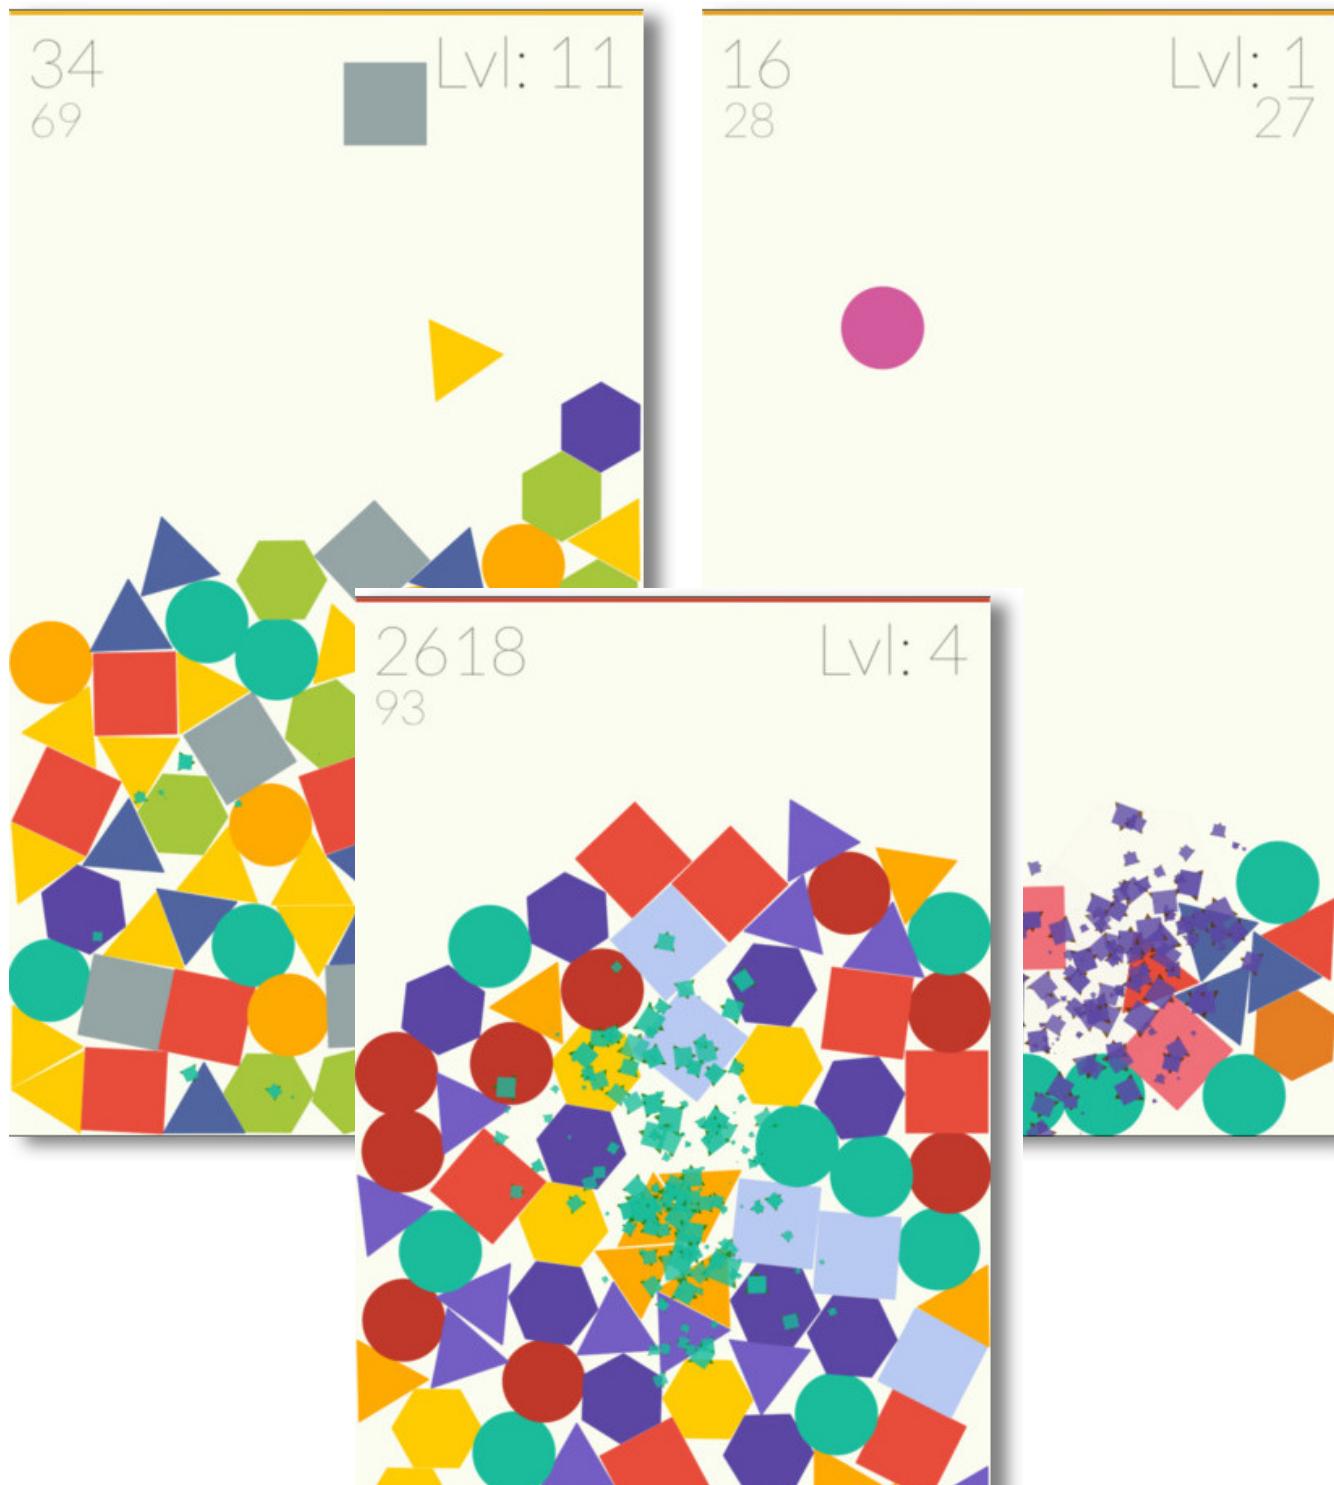

Client: Internal

Role: Sole iOS Developer

Description: A game about crushing gems.

Note: Implemented using SpriteKit and Swift.

Link: <https://itunes.apple.com/gb/app/shapess/id1110061791?mt=8>

Name: Getaway

Device: iPhone

Client: Open Reply

Role: Technical Leader

Description: Weekend Deals Search App

Note: Internal App implemented with great care to UI, using Lean UX methodology

Link: <https://itunes.apple.com/gb/app/getaway-weekend-deals-holiday/id1024618487?mt=8>

The screenshots demonstrate the app's search functionality and flight price comparison feature.

- Screenshot 1:** Shows a search result for Belfast. It displays a large image of a building at night, the text "From £4", and the date range "FRI 15 - SUN 17".
- Screenshot 2:** Shows a search result for Belfast with flight details from LON to BFS. It lists two flights from CheapOair: one by Ryanair departing at 09:10 and another at 06:55.
- Screenshot 3:** Shows a search result for July. It displays a large image of a building, the text "JULY", and the date range "Fri 1 - Sun 3". It lists flight options from LTN to BFS at 07:00 and 06:55, and from BFS to LTN at 08:15 and 08:25.
- Screenshot 4:** Shows a search result for Basel. It displays a large image of a cathedral, the text "From £72.00", and the date range "Fri 1 - Sun 3".
- Screenshot 5:** Shows a search result for Gothenburg. It displays a large image of a building, the text "From £80.00", and the date range "Fri 1 - Sun 3".
- Screenshot 6:** Shows a search result for Belfast. It displays a large image of a building, the text "From £86.00", and the date range "Fri 1 - Sun 3".

Role: Developer

Description: Official App for YooDeal, a coupons search engine

Note: Classic Mission Impossible: previously built by an external agency, they ran out of time and delivered an incomplete big ball of mud; I took the ownership, cleaned, added features and released it

Link: --

The home screen of the YooDeal app features a red header with the 'yooddeal' logo and a search bar. Below the header is a 'CATEGORIES' section with icons for food, health, and entertainment. The main area displays four promotional deals:

- Gnocco Fritto**: All You Can Eat Di Gnocco Fritto Per Due Con Tagliere Di Affettati + Gnocc... (52% off, €24)
- Anticellulite E Dimagrimento**: 1 Seduta Di Postural Led A 26 Euro Invece Di 140 Euro! Per Qualsiasi Tip... (81% off, €26)
- Consulenza**: Consulenza Olistica A Scelta Tra Theta Healing E Trattamento Reiki A 16 Eur... (73% off, €16)
- Cucina Emiliana**: Cena Tipica Emiliana Per Due Completa Di Antipasto + Primo + Sec... (56% off, €39)

At the bottom are navigation icons for settings, filters, sorting, and a heart.

The map view shows the city of Milan with numerous black location pins scattered across the urban area, indicating the locations of deals. The map includes street names like Via Padova, Via Palestro, and Corso Lodovico. A blue dot marks the user's current location.

A detailed view of a deal for a restaurant. The top right shows a timer icon and '251 days'. The deal is for a meal at 'Poinx' with a 52% discount from €50 to €24. The deal includes images of food like bread and meat, and icons for a shopping cart and email. Text below the deal reads: 'Poinx propone un favoloso AFFARE DI ZONA! Un occhio ai dettagli: All you can eat Gnocco Fritto per due a 24 Euro con: • Gnocco Fritto in formula all you can eat'. It also shows a 5-star rating and 12 reviews. A map pin indicates the location at 'Via Alserio 22'.

Name: CityNews

Device: iPhone

Client: Tranquo

Role: Sole Developer

Description: Official app for <http://citynews.it>

Note: Citynews is a local electronic newspaper with more than 20 editions; the challenge was to make the content available in case of bad network, using caches and prefetching

Link: <https://itunes.apple.com/it/app/citynews/id381723365?mt=8>

The image displays three side-by-side screenshots of the CityNews mobile application interface. Each screenshot shows a different regional edition: BolognaToday, MilanoToday, and NapoliToday. The top bar of each screen includes the device name (e.g., 'Cerco...', signal strength, battery level, and time (18:16, 18:11, 18:45)), weather information (17°C), and a search bar.

- BolognaToday:** Shows a news feed with several articles. One article is about Gemelline, another about Vasco Rossi's health, and a third about Zé Elias.
- MilanoToday:** Features a map of Milan with numerous location pins indicating news points of interest. Labels on the map include 'Orto iOn nel centro di Milano', 'Largo Bersaglieri', 'Centro', 'Guastalla', 'Porta Romana', 'Porta Vigentina', 'AO Istituto Ortopedico Gaetano Pini-Milano', and 'Università'. Below the map are five news cards.
- NapoliToday:** Displays a grid of 16 small thumbnail images showing various scenes from Naples, such as people at tables outdoors, a speaker at a podium, and a group of people in a public space.

At the bottom of each screen are five navigation icons: 'Notizie' (Newspaper icon), 'Mappa' (Map icon), 'Vox Populi' (Speech bubble icon), 'Media' (TV icon), and 'Impostazioni' (Gear icon).

Name: Nexta Arte Suite

Device: iPhone

Client: Tranquo

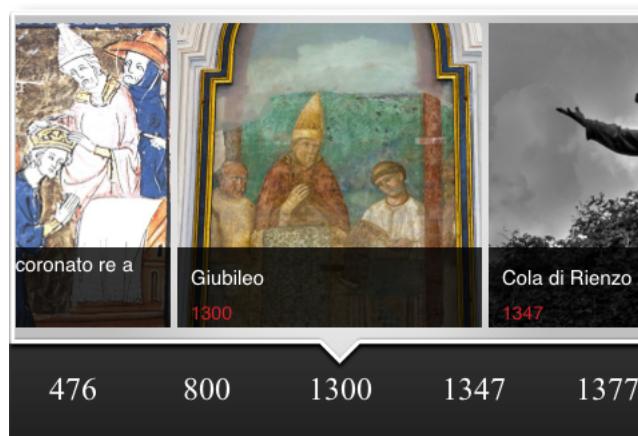

Role: Team Leader

Description: Guidebooks for <http://www.arte.it>

Note: Arte.it is a market leader for "artistic" guidebooks in Italy; we created an engine to build different apps changing only a configuration file

Link: <https://itunes.apple.com/it/artist/nexta-srl/id473553498>

The screenshot displays the Arte.it app's main screen. On the left is a map of Milan with numerous red circular icons scattered across it, each containing a white letter 'P'. To the right of the map is a vertical sidebar with various icons and labels: a church icon for 'Eventi', a camera icon for 'Da vedere', a compass icon for 'Percorsi', a graduation cap icon for 'Guide d'autore', a face icon for 'Artisti', a timeline icon for 'Timeline', and a photo icon for 'Cartoline'. At the bottom of the sidebar are four navigation buttons: 'Arte' (with a stylized 'A'), 'In città' (with a location pin), 'Preferiti' (with a star), 'Mappa' (with a map), and 'Altro' (with three dots). The top of the screen has a red header bar with the word 'Arte'.

Name: Sudoiku

Device: Android

Client: Internal

Role: Sole Developer

Description: Nice graphics Sudoku app

Note: I wrote it to learn Android Sdk (1.2!). I even released the source:

<https://github.com/gscalzo/Sudoiku>
